

V1000 VACUUM VALVE SERIES

Model V1165-10

- 2" Vacuum Seal Off Valve

FEATURES

- Compact, Vacuum Tight
- Excellent Conductance
- Positive Pressure Relief
- Cap (Plastic)
- Plug (Brass)
- Body (304 SST)
- Use with Valve Operator Model V2165-20
- Available with Integral TC port Model V1165-11

OPERATING SPECIFICATIONS

- SERVICE: High Vacuum.
- PRESSURE: 1×10^{-8} TORR Vacuum.
- TEMPERATURE: +150°F TO -60°F.
- LEAK RATE: 1×10^{-8} STD. CC GHe/SEC. (Seal Permeability).
- CONNECTION: Weld Junction Is Standard. Thread And Flange Junctions Available On Special Request.

APPLICATIONS

- Piping and Flexlines
- Vacuum Insulated Piping Systems
